

MODEL

536

MODEL 536

BUILT FOR PRODUCTIVITY.

The New Model 536 is purpose-built to get the job done in non-CDL applications up to 26,000 lbs. Ideal for pick-up and delivery applications, the Model 536 is easy-to-drive and efficient. The spacious interior provides drivers a comfortable, ergonomic work environment that includes customizable dash panels, deep cup holders, multiple power ports and best-in-class storage options for personal items. The 2.1 meter wide cab can also comfortably accommodate three people.

The Model 536 offers outstanding visibility through its lowered dash, large windscreen, sloped hood and large mirrors. The compact, under-cab battery box features best-in-class stair style steps to help drivers get in and out of the cab. When combined with the new PACCAR TX-8 automatic transmission, the PACCAR PX-7 and PX-9 engines deliver an ideal blend of power, fuel economy and maximum uptime.

The Model 536 is built to stay productive day after day, year after year.

KEY SPECS

Hoods	107" or 109" BBC
Engines	PACCAR PX-7, PX-9 or CNG
GVWR	26,000 lbs.
Fuel Tanks	50, 60, 70, 80, & 100 Gallon Options
